

The Connected **Trimble** Construction One™ Team:

Equipment Management Professionals

The cost of fleet equipment impacts a company's bottom line. Between preventative maintenance, managing assets, and tracking depreciation, you need to be a machine to care for the machines.

Running a Better Business Series

What Equipment Managers want.

Protect your equipment investment with proper maintenance and billing. Charge assets to jobs accurately using a mobile device.

What Equipment gets.

Trimble Construction One™

		Point Solutions	Legacy Processes
Charge equipment to jobs and report profit for each piece of equipment. Track all costs associated with individual pieces of equipment	✓	Tedious administration of third-party connectors	Unscalable, manual and risk-prone processes
Track detailed cost history for the life of the equipment, including tune-ups, repair, body work and depreciation	✓		
Define maintenance schedules with detailed listing of maintenance activities, service descriptions, parts required and estimated hours	✓		
Set up flexible revenue rates; equipment may be charged at hourly, daily, weekly or monthly rate.	✓		

Ask us how **Trimble** Construction One can help your business.

What you get from Trimble Construction One:

- » A single source of connected data reduces duplicate entry
- » Stay on top of preventative maintenance, repairs and other equipment needs
- » Full job-cost integration with equipment projects true project profitability
- » Real-time equipment data and reporting to provide a clearer picture of equipment usage and health
