

Trotter & Morton

In 1927, Trotter & Morton began its journey as a plumbing and heating company with a pioneering spirit. In the following years, and through a lot of hard work, our people have helped bring life to some of Alberta's most iconic projects.

Today, the Trotter & Morton Group of Companies continue as a diverse group of building trades experts. We offer a unique integrated solution for our client—beginning with site demolition and preparation, advancing through all aspects of construction, and continuing after the build with ongoing maintenance.

Trotter & Morton is comprised of 7 arms: Blue Bird, Whaler, Rambler, PCI, Precision, Facility Services and Building Technologies.

Viewpoint Success

Trotter & Morton began to evaluate leading software companies based on functionality and IT requirements post implementation. The decision became clear after an intense vetting process Viewpoint was the best solution. The deciding factors were the ease of use and the Windows functionality and folder structure which in turn will simplify training and adaption. Trotter and Morton's adaption to Viewpoint has been seamless with the ease and familiarity of all the forms while
